

ELL887 Cloud Computing

Assignment 3 - Costing

- a) Compare the price of the architecture you created in Assignment 2 for the 3 public clouds. (Make some realistic assumptions if reqd). Submit screenshots of the pricing tools you have used. [3]
- b) Utilize the Total Cost of Ownership Calculator to determine a scenario where moving to cloud is advisable and a scenario where it is not advisable. (The scenarios have to be realistic). Submit screenshots from the TCO tool along with details of the scenarios. [2]

- Due: April 16
- Marks: 5
